vilaplaninka

Naša vinska karta je tiho vabilo v svet zgodb,  
ujetih v kapljice sonca in zemlje.  
Več kot 200 etiket vrhunskih slovenskih  
vin — vsako s svojo pesmijo,  
vsako s svojim utripom — vas popelje na  
čutno popotovanje skozi vinorodna srca  
Slovenije.

Pred vami ni zgolj seznam vin. Pred vami je poklon mojstrstvu,  
tradiciji in neprecenljivi dediščini slovenskega vinogradništva.  
Poklon vinarjem, ki so z ljubeznijo, znanjem in potrpežljivostjo  
skozi stoletja stkali vinorodno identiteto slovenskega naroda.

V vsakem vinu odmeva šepet zemlje, dih vetra in rok, ki so s  
spoštovanjem negovale vsak grozd. Vsako vino pripoveduje svojo  
zgodbo: zgodbo zemlje, ki je rodila najplemenitejše sadove,  
zgodbo ljudi, ki so v vsakem trsu pustili del svojega srca, zgodbo  
časa, ki v lesu sodov in v miru kleti plemeniti najboljše, kar  
lahko ponudi narava.

Našo klet oblikujejo vina iz vseh treh slovenskih vinorodnih  
dežel, s poudarkom na avtohtonih sortah grozdja in  
tradicionalnih slogih pridelave. Posebno mesto namenjamo  
oranžnim vinom — prefinjenim belim vinom s podaljšano  
maceracijo, v katerih barva večernega sonca skriva globoke,  
kontemplativne zgodbe.

V skladu z našo zavezo trajnosti in odgovornega sobivanja z  
naravo, ponosno predstavljamo vina, pridelana po biološko-  
dinamičnih načelih — vina, v katerih življenje pulzira brez  
prekinitev, vina, ki spoštujejo naravne ritme in slavijo čisto  
esenco zemlje.

Dobrodošli v našo klet zgodb, kjer se tradicija, umetnost in  
strast prepletajo v vsakem kozarcu.

“Živi v svojem stoletju, toda nikar ne bodi  
njegov otrok. Dajaj svojim sodobnikom, kar  
potrebujejo, ne tistega, kar hočejo.”

*Friedrich Schiller*

Our wine list is a silent invitation to the world of stories captured in droplets of the sun and the soil. More than 200 labels of the finest Slovenian wines – each with its own song and its own pulse – will take you on a sensual journey through the wine-growing heart of Slovenia.

This is more than just a wine list. It is a tribute to the mastery, tradition and priceless heritage of Slovenian viticulture. A tribute to the winemakers who have been pouring all their love, expertise and patience into forging Slovenia's wine-growing identity over the centuries.

Each wine echoes the murmur of the soil, the breaths of the wind and the hands that have tended each grape with great respect. Each wine tells its own story: the story of the soil that has produced the noblest fruit, the story of the people who have left a part of their hearts in each vine, the story of time that refines the best that nature has to offer in wooden barrels and the tranquillity of cellars.

Our wine cellar includes wines from all three Slovenian wine-growing regions, with an emphasis on indigenous grape varieties and traditional winemaking styles. A special place is devoted to orange wines – sophisticated white wines with extended maceration, characterised by the colour of the evening sun that hides deep, contemplative stories.

In keeping with our commitment to sustainability and responsible coexistence with nature, we are proud to present wines produced according to biodynamic principles – wines in which life pulsates without a break, wines that respect natural rhythms and celebrate the soil's pure essence.

Welcome to our cellar of stories, where tradition, art and passion come together in every glass.

“Live with your century, but do not be its captive; render to your contemporaries what they need, not what they praise.”

*Friedrich Schiller*

S tem prispevamo k trajnostnemu pristopu našega hotela, obenem pa ta voda - od vseh pijač - najbolj odžaja, dobro vpliva na počutje, blaži glavobole in druge težave ter pomaga pri uravnavanju telesne teže. Kakovost vode ves čas nadzirajo pristojne službe.

Postrežnina za 2 osebi 4,70 €

## GAZIRANA VODA IZ PIPE – DOMAČA SODAVICA

Ker verjamemo v moč narave in svežino izvirske čistosti, našo jezersko vodo gaziramo sami – da ohranimo njen edinstven značaj in ji dodamo osvežujočo iskrivost.

Naravno. Lokalno. Z ljubeznijo.

Postrežnina za 2 osebi 4,70 €

## JEZERSKA SLATINA

Nad Zgornjim Jezerskim, na nadmorski višini pribl. 1250 m, izvira prav posebna mineralna voda, ki ji domačini pravijo "Jezerska slatna" ali "Ta kisva voda". Ta voda je nežno gazirana in je zelo bogata z različnimi minerali, predvsem z magnezijem ter manganovimi in amonijevimi spojinami. Zaradi visoke vsebnosti magnezija, ki vpliva na prebavo, je priporočljiva dnevna količina "Jezerske slatne" največ 2 dcl.

Postrežnina za 2 osebi 4,70 €

## CANA, KRALJEVA GAZIRANA VODA

Ime CaNa izhaja iz njene bogate sestave elementov. Vsebuje namreč veliko kalcija (Ca) in zelo malo natrija (Na). Izvira sredi neokrnjene narave v Krajinskem parku Goričko v Prekmurju.

## THE JEZERSKO SPRING WATER

Above Zgornje Jezersko, at an altitude of approx. 1250 m, is the spring source of a very special mineral water, which the locals call the Jezersko Spring Water or The Sour Water. This is mildly carbonated water, rich in various minerals, in particular magnesium, as well as manganese and ammonium substances. Due to its high magnesium content, which has a beneficial effect on digestion, its recommended daily intake is no more than 2 dcl.

Service charge for 2 persons    €4.70

## CANA ROYAL WATER, SPARKLING WATER

The name CaNa is derived from its element content – it contains a large amount of calcium (Ca) and very little sodium (Na). It originates from amidst the unspoiled nature of the Goričko Nature Park in the region of Prekmurje.

Spoštovani gostje,

vinska karta je živa stvar, ki jo skupaj z vinarji nenehno oblikujemo. Zato se včasih lahko zgodi, da vina, ki je na karti ali pa določenega letnika vina, ni na voljo. V tem primeru vas lepo prosim, da se posvetujete z natakarjem in priporočili vam bomo drugo vino. Ravno tako se lahko zgodi, da določeno vino, ki se nudi na kozarec, ni na voljo. Tudi v tem primeru vam bomo z veseljem našli ustrezno zamenjavo.

Hvala za razumevanje.

Dear guests,

our wine list is an ever-changing thing, constantly updated in collaboration with the winemakers. On account of this, some of the listed wines or a specific vintage of wine may at times not be available. If this is the case, our waitstaff will be happy to recommend you another wine. The same goes for all the listed wines served by the glass – if the wine you would like is not on offer, we will be happy to help you choose another one.

Many thanks for your understanding.

## Biodinamična, ekološka in tradicionalna (oranžna) vina

Ko je človek pridelal prvo vino, je bilo to vino po vsej verjetnosti pridelano na način, na katerega danes pridelujemo biodinamična in oranžna vina. Zgodovina pridelave vina sega tisočletja v preteklost ter je močno povezana z razvojem poljedelstva in zahodne civilizacije. Najstarejši dokazi o udomačitvi vinske trte in pridelavi vina izvirajo iz današnje Gruzije, segajo pa več kot šest tisoč let pred naše štetje. Že v prazgodovini so vino začeli pridelovati tudi na področju današnje Slovenije. To potrjuje najdba reliefa trtnega lista, ki so ga našli na pobočju Rifnika pri Celju.

Pridelovanje belih vin s podaljšano maceracijo je skozi stoletja tradicionalen način pridelave belega vina predvsem na jugozahodnem delu Slovenije. Fenomen in tehniko pridelovanja belih vin s podaljšano maceracijo (oranžnih vin) so v osemdesetih letih prejšnjega stoletja oživili zamejski vinarji iz vasi Oslavje, zbrani okrog Joška Gravnarja in Stanka Radikona, kmalu pa so temu sledili vinarji po vsej Sloveniji in tudi po svetu. Pridelava belih maceriranih vin se iz leta v leto povečuje, glas o njihovi posebnosti pa se nezadržno širi po svetu.

Trajnostna usmerjenost našega hotela v ospredje postavlja vina, ki so pridelana po biološko dinamični metodi. Utemeljitelj biološko dinamičnega kmetovanja je bil Rudolf Steiner (1861–1925). Po njegovem nauku vinograd ni samo nasad trt, temveč je kot celota živ organ, za katerega veljajo poleg zakonitosti mineralnega sveta še zakonitosti življenja, astralnosti in duhovnosti. Tako se energija iz zemlje preko trte s pomočjo sonca in vode v obliki živega vina pretaka v naše kozarce.

Steinerjevo filozofijo biodinamike je nadgradila Maria Thun (1922 - 2012) z razdelanim letnim setvenim koledarjem, kjer je natančno opredelila lunine faze in njihov vpliv na delo v vinogradu.

Biodinamična pridelava vin je tako najbolj trajnostna oblika vinoreje.

“Človek je to, kar jé in pije.  
Le da je potrebno poleg materialnega procesa  
razumeti tudi duhovnega.”

*Rudolf Steiner*

## Biodynamic, Organic and Traditional (Orange) Wines

The very first wine was most likely made in much the same biodynamic manner in which orange wines are produced today.

The history of winemaking goes back thousands of years and is closely linked to the development of agriculture and Western civilisation. The oldest evidence of the domestication of grapevines and winemaking was found in present-day Georgia and dates back to over six thousand years BCE. Winemaking made its appearance in the area of present-day Slovenia already in antiquity, as evidenced by a vine leaf relief discovered on Rifnik hill near the town of Celje.

Making white wines by using prolonged maceration has been a traditional style of white wine production in Slovenia's SW part throughout centuries. This method and the phenomenon that results in orange wines was revived in the 1980s by ethnic Slovenian winemakers from Italy's Oslavje (Oslavia) headed by Joško Gravnar and Stanko Radikon, who were soon after followed by winemakers throughout Slovenia and across the globe. The production of macerated white wines is increasing year by year and the news of their uniqueness has spread all over the world.

The sustainable concept of our hotel highlights wines made by using biodynamic methods. The founder of the biodynamic approach to agriculture was Rudolf Steiner (1861–1925). According to his teachings, a vineyard is not merely a plantation of grape-bearing vines, but an organism, a self-contained entity guided not only by the principles of the mineral world, but also by the principles of life, astrality and spirituality. Aided by the sun and water, energy travels from the earth through the grapevine, before ending in our glasses as living wine.

Steiner's philosophy of biodynamics was upgraded by Maria Thun (1922-2012), whose planting calendar meticulously lists the phases of the moon and their influence on activities in the vineyard.

The biodynamic method of winemaking is thus the most sustainable form of winegrowing.

“Man is what he eats and drinks. However, in addition to the material process, one also needs to understand the spiritual one.”

*Rudolf Steiner*

Spoštovani gostje,

vinska karta je živa stvar, ki jo skupaj z vinarji nenehno oblikujemo. Zato se včasih lahko zgodi, da vina, ki je na karti, trenutno ne bo na voljo. Takrat vas lepo prosim, da se posvetujete z natakarjem in priporočili vam bomo drugo vino. Ravno tako se lahko zgodi, da določeno vino, ki se nudi na kozarec, trenutno ni na voljo. Tudi v tem primeru vam bomo z veseljem našli ustrezno zamenjavo.

Hvala za razumevanje.

Dear guests,

our wine list is an ever-changing thing, constantly updated in collaboration with the winemakers. On account of this, some of the listed wines may at times not be available. If this is the case, our waitstaff will be happy to recommend you another wine. The same goes for all the listed wines served by the glass – if the wine you would like is not on offer, we will be happy to help you choose another one.

Many thanks for your understanding.
