Naša vinska karta je povabilo na
degustacijsko popotovanje
po slovenskih vinskih regijah.

Več kot 160 vrhunskih slovenskih etiket vin –
vsaka z drugačnim okusom slovenske zemlje.

Vsako vino pripoveduje zgodbo.

Vinska karta, ki je pred vami, je naš poklon vsem vinarjem
na etničnem ozemlju Slovenije. Je poklon njihovemu
delu, njihovemu znanju, predvsem pa je poklon vinarski in
vinogradniški tradiciji rodov Slovencev, ki so se skozi stoletja
ukvarjali s pridelavo vina na slovenskih tleh.

Ker želimo svojim gostom približati to tradicijo in znanje, smo
pripravili širok izbor slovenskih vin iz vseh vinorodnih okolišev
Slovenije, vključno s slovenskimi avtohtonimi vini in avtohtonimi
slovenskimi sortami grozdja.

Posebno pozornost namenjamo tradicionalni vinoreji, ki izhaja
predvsem iz jugozahodnega dela Slovenije, to je belim vinom s
podaljšano maceracijo, tako imenovanim oranžnim vinom.

Glede na trajnostni koncept našega hotela, glavno vlogo v naši
vinski karti igrajo vina, pridelana po biološko dinamični metodi,
ki so v zadnjih desetletjih spisala novo zgodbo v svetovnem
vinarstvu in vinogradništvu.

“Živi v svojem stoletju, toda nikar ne bodi
njegov otrok. Dajaj svojim sodobnikom, kar
potrebujejo, ne tistega, kar hočejo.”

Friedrich Schiller

Our wine list is an invitation
to a tasting journey around
Slovenian wine regions.

More than 160 of the finest Slovenian wines –
each with a different taste of Slovenian soil
and its own story to tell.

The featured wine list is our tribute to all the winemakers in the ethnic territory of Slovenia. It is a tribute to their work and expertise and, above all, to the winegrowing and winemaking tradition of all the generations of Slovenians, who have been making wine on Slovenian soil for centuries.

With the aim of familiarising our guests with this tradition, we have prepared a wide selection of wines from all Slovenian winegrowing regions and wine districts, including the country's native wines and grape varieties.

We paid special attention to traditional winemaking, mainly originating from the country's southwestern corner, i.e. white wines with prolonged maceration, the so-called orange wines.

Our wine list reflects the sustainable concept of our hotel, putting first and foremost wines made by using biodynamic methods, which have turned a whole new page in the world of wines over the past few decades.

“Live with your century, but do not be its
captive; render to your contemporaries what
they need, not what they praise.”

Friedrich Schiller

VODNA KARTA

VODA IZ PIPE

Ker imamo na Jezerskem privilegij, da so nam predhodniki zapustili neokrnjene vodne vire, vam brezplačno nudimo kakovostno vodo iz pipe. S tem prispevamo k trajnostnemu pristopu našega hotela, obenem pa ta voda od vseh pijač najbolj odžejja, dobro vpliva na počutje, blaži glavobole in druge težave ter pomaga pri uravnavanju telesne teže. Kakovost vode pristojne službe ves čas nadzirajo.

JEZERSKA SLATINA

Nad Zgornjim Jezerskim, na nadmorski višini pribl. 1250 m, izvira prav posebna mineralna voda, ki ji domačini pravijo "Jezerska slatna" ali "Ta kisva voda". Ta voda je nežno gazirana in je zelo bogata z različnimi minerali, predvsem z magnezijem ter manganovimi in amonijevimi spojinami. Zaradi visoke vsebnosti magnezija, ki vpliva na prebavo, je priporočljiva dnevna količina "Jezerske slatne" največ 2 dcl. "Jezersko slatno" vam z veseljem postrežemo brezplačno.

CANA, KRALJEVA GAZIRANA VODA

Ime CaNa izhaja iz njene bogate sestave elementov. Vsebuje namreč veliko kalcija (Ca) in zelo malo natrija (Na). Izvira sredi neokrnjene narave v Krajinskem parku Goričko v Prekmurju.

WATER MENU

TAP WATER

Since we are fortunate to have had unspoiled local water resources left to us by our ancestors, we can offer you high-quality tap water for free. Not only does this contribute to our sustainable approach, our tap water is also as good as it gets when it comes to quenching thirst. It also has a beneficial effect on the well-being, it is a remedy for headache and other problems, and aids in weight management. The water quality is regularly monitored by the competent authorities.

THE JEZERSKO SPRING WATER

Above Zgornje Jezersko, at an altitude of approximately 1250 m, is the spring source of a very special mineral water, which the locals call the Jezersko Spring Water or The Sour Water. This is mildly carbonated water, rich in various minerals, in particular magnesium, as well as manganese and ammonium substances. Due to its high magnesium content, which has a beneficial effect on digestion, its recommended daily intake is no more than 2 dcl. We will be happy to serve it to you for free.

CANA ROYAL WATER, SPARKLING WATER

The name CaNa is derived from its element content – it contains a large amount of calcium (Ca) and very little sodium (Na). It originates from amidst the unspoiled nature of the Goričko Nature Park in the region of Prekmurje.

Marka Korena

in vrhunskih vin

Spoštovani gostje, ljubitelji in ljubiteljice slovenskih vin,

poleg izrednega izbora slovenskih vin, vam v našem hotelu z veseljem pripravimo tudi vodene vinske degustacije in delavnice o slovenskih vinih.

Pripravili smo štiri različne vinske delavnice:

Vinska šola za začetnike ter ujemanje hrane in vina.....	39 €/osebo
Slovenija – dežela velikih vin	55 €/osebo
Biodinamika – pot v prihodnost.....	55 €/osebo
Oranžna revolucija	69 €/osebo

Seveda degustacijo ali vinsko delavnico z veseljem prilagodimo vašim željam. Za podrobnejše informacije glede degustacij in vinskih delavnic se prosimo, obrnite na osebje Vile Planinka.

Če vam je bilo katero od naših vin še posebej všeč in bi ga radi odnesli domov, povprašajte v recepciji, kjer lahko vsa vina kupite po maloprodajnih cenah.

Spoštovani gostje,

vinska karta je živa stvar, ki jo skupaj z vinarji nenehno oblikujemo. Zato se včasih lahko zgodi, da vina, ki je na karti, trenutno ne bo na voljo. Takrat vas lepo prosim, da se posvetujete z natakarjem in priporočili vam bomo drugo vino. Ravno tako se lahko zgodi, da določeno vino, ki se nudi na kozarec, trenutno ni na voljo. Tudi v tem primeru vam bomo z veseljem našli ustrezno zamenjavo.

Hvala za razumevanje.

In the company of a top sommelier,
Marko Koren,
and some fine wines.

Dear guests, lovers of Slovenian wines,

At our hotel, you can enjoy a wide selection of fine Slovenian wines, as well as take part in various sommelier-guided wine tastings and workshops on wines from Slovenia.

There are four different wine workshops to choose from:

Beginners' Wine School and Food & Wine Pairing Tips	€39/person
Slovenia – A Land of Fine Wine	€55/person
Biodynamics – The Way to the Future	€55/person
Orange Revolution	€69/person

We will be happy to tailor any tasting or wine workshop to your individual needs. For more information on the available tastings and workshops, please contact the Vila Planinka staff.

If you love any of our wines and would like to take it home, ask for it at the reception desk, where you can buy all the wines at retail prices.

Dear guests,

our wine list is an ever-changing thing, constantly updated in collaboration with the winemakers. On account of this, some of the listed wines may at times not be available. If this is the case, our waitstaff will be happy to recommend you another wine. The same goes for all the listed wines served by the glass – if the wine you would like is not on offer, we will be happy to help you choose another one.

Many thanks for your understanding.

Biodinamična, ekološka in tradicionalna (oranžna) vina

Ko je človek pridelal prvo vino, je bilo to vino po vsej verjetnosti pridelano na način, na katerega danes pridelujemo biodinamična in oranžna vina. Zgodovina pridelave vina sega tisočletja v preteklost ter je močno povezana z razvojem poljedelstva in zahodne civilizacije. Najstarejši dokazi o udomačitvi vinske trte in pridelavi vina izvirajo iz današnje Gruzije, segajo pa več kot šest tisoč let pred naše štetje. Že v prazgodovini so vino začeli pridelovati tudi na področju današnje Slovenije. To potrjuje najdba reliefa trtnega lista, ki so ga našli na pobočju Rifnika pri Celju.

Pridelovanje belih vin s podaljšano maceracijo je skozi stoletja tradicionalen način pridelave belega vina predvsem na jugozahodnem delu Slovenije. Fenomen in tehniko pridelovanja belih vin s podaljšano maceracijo (oranžnih vin) so v osemdesetih letih prejšnjega stoletja oživili zamejski vinarji iz vasi Oslavje, zbrani okrog Joška Gravnarja in Stanka Radikona, kmalu pa so temu sledili vinarji po vsej Sloveniji in tudi po svetu. Pridelava belih maceriranih vin se iz leta v leto povečuje, glas o njihovi posebnosti pa se nezadržno širi po svetu.

Trajnostna usmerjenost našega hotela v ospredje postavlja vina, ki so pridelana po biološko dinamični metodi. Utemeljitelj biološko dinamičnega kmetovanja je bil Rudolf Steiner (1861–1925). Po njegovem nauku vinograd ni samo nasad trt, temveč je kot celota živ organ, za katerega veljajo poleg zakonitosti mineralnega sveta še zakonitosti življenja, astralnosti in duhovnosti. Tako se energija iz zemlje preko trte s pomočjo sonca in vode v obliki živega vina pretaka v naše kozarce.

Steinerjevo filozofijo biodinamike je nadgradila Maria Thun (1922 - 2012) z razdelanim letnim setvenim koledarjem, kjer je natančno opredelila lunine faze in njihov vpliv na delo v vinogradu.

Biodinamična pridelava vin je tako najbolj trajnostna oblika vinoreje.

“Človek je to, kar jé in pije.
Le da je potrebno poleg materialnega procesa
razumeti tudi duhovnega.”

Rudolf Steiner

Biodynamic, Organic and Traditional (Orange) Wines

The very first wine was most likely made in much the same biodynamic manner in which orange wines are produced today.

The history of winemaking goes back thousands of years and is closely linked to the development of agriculture and Western civilisation. The oldest evidence of the domestication of grapevines and winemaking was found in present-day Georgia and dates back to over six thousand years BCE. Winemaking made its appearance in the area of present-day Slovenia already in antiquity, as evidenced by a vine leaf relief discovered on Rifnik hill near the town of Celje.

Making white wines by using prolonged maceration has been a traditional style of white wine production in Slovenia's SW part throughout centuries. This method and the phenomenon that results in orange wines was revived in the 1980s by ethnic Slovenian winemakers from Italy's Oslavje (Oslavia) headed by Joško Gravnar and Stanko Radikon, who were soon after followed by winemakers throughout Slovenia and across the globe. The production of macerated white wines is increasing year by year and the news of their uniqueness has spread all over the world.

The sustainable concept of our hotel highlights wines made by using biodynamic methods. The founder of the biodynamic approach to agriculture was Rudolf Steiner (1861–1925). According to his teachings, a vineyard is not merely a plantation of grape-bearing vines, but an organism, a self-contained entity guided not only by the principles of the mineral world, but also by the principles of life, astrality and spirituality. Aided by the sun and water, energy travels from the earth through the grapevine, before ending in our glasses as living wine.

Steiner's philosophy of biodynamics was upgraded by Maria Thun (1922–2012), whose planting calendar meticulously lists the phases of the moon and their influence on activities in the vineyard.

The biodynamic method of winemaking is thus the most sustainable form of winegrowing.

“Man is what he eats and drinks. However, in addition to the material process, one also needs to understand the spiritual one.”

Rudolf Steiner

“Karizmatični Kristančič je nedvomno ena najbolj osupljivih osebnosti vinskega sveta v zadnjih nekaj desetletjih. Ne boji se poti v neznano, v vinskem svetu pa v vseh pogledih nenehno dviguje merila.”

“The charismatic Kristančič is without doubt one of the most awe-inspiring personalities in the world of wines of the past few decades. He is not afraid of venturing into the unknown, never failing to raise the standards in all respects.”

Spoštovani gostje,

vinska karta je živa stvar, ki jo skupaj z vinarji nenehno oblikujemo. Zato se včasih lahko zgodi, da vina, ki je na karti, trenutno ne bo na voljo. Takrat vas lepo prosim, da se posvetujete z natakarjem in priporočili vam bomo drugo vino. Ravno tako se lahko zgodi, da določeno vino, ki se nudi na kozarec, trenutno ni na voljo. Tudi v tem primeru vam bomo z veseljem našli ustrezno zamenjavo.

Hvala za razumevanje.

Dear guests,

our wine list is an ever-changing thing, constantly updated in collaboration with the winemakers. On account of this, some of the listed wines may at times not be available. If this is the case, our waitstaff will be happy to recommend you another wine. The same goes for all the listed wines served by the glass – if the wine you would like is not on offer, we will be happy to help you choose another one.

Many thanks for your understanding.
