rodna karta*

*Wine List
Water Menu*

Naša vinska karta je povabilo na
degustacijsko popotovanje
po slovenskih vinskih regijah.

Več kot 150 vrhunskih slovenskih etiket vin –
vsaka z drugačnim okusom slovenske zemlje.

Vsako vino pripoveduje zgodbo.

Vinska karta, ki je pred vami, je naš poklon vsem vinarjem
na etničnem ozemlju Slovenije. Je poklon njihovemu
delu, njihovemu znanju, predvsem pa je poklon vinarski in
vinogradniški tradiciji rodov Slovencev, ki so se skozi stoletja
ukvarjali s pridelavo vina na slovenskih tleh.

Ker želimo svojim gostom približati to znanje in tradicijo, smo
pripravili širok izbor slovenskih vin iz vseh vinorodnih okolišev
Slovenije, vključno s slovenskimi vinskimi posebnostmi, kakor sta
teran in cviček, ter skoraj vsemi avtohtonimi slovenskimi vini.

Posebno pozornost namenjamo oranžnim vinom, to je belim
vinom s podaljšano maceracijo, ter vinom, pridelanih po
biološko dinamični metodi, ki so v zadnjih desetletjih spisala
novo zgodbo v svetovnem vinarstvu in vinogradništvu.

“Živi v svojem stoletju, toda nikar ne bodi
njegov otrok. Dajaj svojim sodobnikom, kar
potrebujejo, ne tistega, kar hočejo.”

Friedrich Schiller

Our wine list is an invitation
to a tasting journey around
Slovenian wine regions.

More than 150 of the finest Slovenian wines –
each with a different taste of Slovenian soil
and its own story to tell.

The wine list is our tribute to all the winemakers in the ethnic
territory of Slovenia. It is a tribute to their work and expertise –
and, above all, a tribute to the winegrowing and winemaking
tradition of all the generations of Slovenians, who have been
producing wine on Slovenian soil for centuries.

With the aim of making our guests familiar with wine-related
knowledge and tradition, we have prepared a wide selection of
Slovenian wines from all wine-growing regions and wine districts
of Slovenia, including Slovenian wine specialties such as Teran
and Cviček, as well as almost all indigenous Slovenian wines.

Special attention has been devoted to orange wines, i.e. white
wines with prolonged maceration, and wines made by means of
biodynamic methods, which have created a whole new story in
the world of wines over the past few decades.

“Live with your century, but do not be its
captive; render to your contemporaries what
they need, not what they praise.”

Friedrich Schiller

Spoštovani gostje,

vinska karta je živa stvar, ki jo skupaj z vinarji nenehno oblikujemo. Zato se včasih lahko zgodi, da vina, ki je na karti, trenutno ne bo na voljo. Takrat vas lepo prosim, da se posvetujete z natakarjem in priporočili vam bomo drugo vino. Ravno tako se lahko zgodi, da določeno vino, ki se nudi na kozarec, trenutno ni na voljo. Tudi v tem primeru vam bomo z veseljem našli ustrezno zamenjavo.

Hvala za razumevanje.

Biodinamična, ekološka in tradicionalna (oranžna) vina

Ko je človek pridelal prvo vino, je bilo to vino po vsej verjetnosti pridelano na način, na katerega danes pridelujemo oranžna vina. Zgodovina pridelave vina sega tisočletja v preteklost ter je močno povezana z razvojem poljedelstva in zahodne civilizacije.

Najstarejši dokazi o udomačitvi vinske trte in pridelavi vina izvirajo iz današnje Gruzije, segajo pa več kot šest tisoč let pred naše štetje. Že v prazgodovini so vino začeli pridelovati tudi na področju današnje Slovenije. To potrjuje najdba reliefa trtne lista, ki so ga našli na pobočju Rifnika pri Celju.

Fenomen in tehniko pridelovanja belih vin s podaljšano maceracijo (oranžnih vin) so v devetdesetih letih prejšnjega stoletja oživili zamejski vinarji iz Oslavja, zbrani okrog Joška Gravnarja in Stanka Radikona, kmalu pa so temu sledili vinarji po vsej Sloveniji in tudi po svetu. Pridelava belih maceriranih vin se iz leta v leto povečuje, glas o njihovi posebnosti pa se nezadržno širi po svetu.

V naši vinski karti imamo tudi nekaj odličnih vin, ki so pridelana po biološko dinamični metodi. Utemeljitelj biološko dinamičnega kmetovanja je bil Rudolf Steiner (1861–1925). Po njegovem nauku vinograd ni samo nasad trt, temveč je kot celota živ organ, za katerega veljajo poleg zakonitosti mineralnega sveta še zakonitosti življenja, astralnosti in duhovnosti. Tako se energija iz zemlje preko trte s pomočjo sonca in vode v obliki živega vina pretaka v naše kozarce.

Nudimo vam tudi vina, ki jim vinarji niso dodajali sulfidov. Ta vina smo posebej označili.

“Človek je to, kar je in pije.

Le da je potrebno poleg materialnega procesa razumeti tudi duhovnega.”

Rudolf Steiner

Biodynamic, Organic and Traditional (Orange) Wines

The very first wine was most likely made in much the same way orange wines are produced today. The history of winemaking goes back thousands of years and is closely linked to the development of agriculture and Western civilisation. The oldest evidence of the domestication of grapevines and winemaking dates back to more than six thousand years BC to present-day Georgia. As early as prehistoric times, wine was already produced in the area of present-day Slovenia too, which is evidenced by a vine leaf relief discovered on the hillside of the Rifnik hill near the town of Celje.

The method and phenomenon of white wines produced through prolonged maceration of grape skins (orange wines) was revived in the 1990s by the winemakers from Oslavje (Oslavia) headed by Joško Gravnar and Stanko Radikon, followed not long after by winemakers throughout Slovenia and across the globe. The production of macerated white wines is increasing year by year, and the news of how special they are has spread all over the world.

Our wine list contains some excellent wines produced by following the biodynamic wine production practices. The founder of the biodynamic approach to agriculture was Rudolf Steiner (1861–1925). According to his ideas, a vineyard is not merely a plantation of grape-bearing vines, but an organism, a self-contained entity guided not only by the principles of the mineral world, but also by the principles of life, astrality and spirituality. Aided by the sun and water, energy travels from the earth through the grapevines, before ending in our glasses as living wine.

We also have several wines with no added sulfites to choose from – they have been marked as ‘no sulfites added’.

“Man is what he eats and drinks. However, in addition to the material process, one also needs to understand the spiritual one.”

Rudolf Steiner

VODNA KARTA

VODA IZ PIPE

Ker imamo na Jezerskem privilegij, da so nam predhodniki zapustili neokrnjene vodne vire, vam brezplačno nudimo kakovostno vodo iz pipe. S tem prispevamo k trajnostnemu pristopu našega hotela, obenem pa ta voda od vseh pijač najbolj odžaja, dobro vpliva na počutje, blaži glavobole in druge težave ter pomaga pri uravnavanju telesne teže. Kakovost vode pristojne službe ves čas nadzirajo.

JEZERSKA SLATINA

Nad Zgornjim Jezerskim, na nadmorski višini pribl. 1300 m, izvira prav posebna mineralna voda, ki ji domačini pravijo "Jezerska slatna" ali "Ta kisva voda". Ta voda je nežno gazirana in je zelo bogata z različnimi minerali, predvsem z magnezijem ter manganovimi in amonijevimi spojinami. Zaradi visoke vsebnosti magnezija, ki vpliva na prebavo, je priporočljiva dnevna količina "Jezerske slatne" največ 2 dcl. "Jezersko slatno" vam z veseljem postrežemo brezplačno.

CANA, KRALJEVA GAZIRANA VODA

Ime CaNa izhaja iz njene bogate sestave elementov. Vsebuje namreč veliko kalcija (Ca) in zelo malo natrija (Na). Izvira sredi neokrnjene narave v Krajinskem parku Goričko v Prekmurju.

WATER MENU

TAP WATER

Since we are fortunate to have had unspoiled local water resources left to us by our ancestors, we can offer you high-quality tap water for free. Not only does this contribute to our sustainable approach, our tap water is also as good as it gets when it comes to quenching thirst. It also has a beneficial effect on the well-being, it is a remedy for headache and other problems, and aids in weight management. The water quality is regularly monitored by the competent authorities.

THE JEZERSKO SPRING WATER

Above Zgornje Jezersko, at an altitude of approximately 1300 m, is the spring source of a very special mineral water, which the locals call the Jezersko Spring Water or The Sour Water. This is mildly carbonated water, rich in various minerals, in particular magnesium, as well as manganese and ammonium substances. Due to its high magnesium content, which has a beneficial effect on digestion, its recommended daily intake is no more than 2 dcl. We will be happy to serve it to you for free.

CANA ROYAL WATER, SPARKLING WATER

The name CaNa is derived from its element content – it contains a large amount of calcium (Ca) and very little sodium (Na). It originates from amidst the unspoiled nature of the Goričko Nature Park in the region of Prekmurje.
